In the Diploma of Work Health and Safety you will gain the relevant skills and essential knowledge to begin or advance your career in the WH&S area. The principles, strategies and techniques covered in this course will prepare you for a career in roles across a wide range of industries and organisations.

The WH&S course teaches all the fundamental skills required to function as a safety officer or manager, beginning with the development of a WH&S system and covering important subjects like risk management, incident investigation, hazard identification, risk assessment and development of procedures.

Students will be provided with sample templates and will complete practical tasks throughout the course to enhance learning.
